New seminars in the training center:

Privacy at school

Data protection and digitization belong and work together. On

Schools use digital tools to make school operations effective

run and students, teachers and parents communicate with each other

and be able to organize the lesson. The processing of personal

Data is an essential part of running a school. In the episode plays

data protection also plays a major role here – all the more so as most of the time

school-age children and young people are affected. Therefore the

State representative in future for the entire school area events

from different data protection perspectives. the

Participation in the events is free of charge.

Two basic seminars for school management form the start

and one for employees in the school office:
