Intermediary in the sale of electricity and natural gas

The Authority received a submission regarding

suspected violation of legal regulations on the protection of personal data during processing

personal data of customers of a company engaged in sales mediation

electricity and natural gas. Specifically, the company was alleged to have committed an infringement

of the general regulation by not respecting the revocation of consent to processing

personal data by a specific person and continued to process the data.

The authority has launched an investigation into the matter which

was terminated on January 2, 2021 with the delivery of the settlement of objections by the Chairman of the Office against the control findings stated in the control protocol.

By checking

a violation of Article 6, paragraph 1 of the general regulation and a violation of Article 12, paragraph 1 were found of the general regulation

Furthermore, a violation of Article 14 of the General Regulation was found because

the controlled person did not obtain personal data directly from the data subject and

at the time of taking over, it did not provide her with any information within the meaning of Article 14, paragraph 1 letter a) to f) of this regulation. Last but not least, it was discovered

violation of Article 17 paragraph 1 letter b) of the general regulation when they were processed personal data despite a request to delete personal data.

Last but not least, a violation of Article 32 of the General Law was found

ordinance. Admittedly, the inspected person had sufficient technical and organizational skills measures to secure personal data as part of an internal directive, itself however, she did not comply.

Following the detected violations, the company was inspected

administrative proceedings initiated by the person.
