

Press release from the Saxon Data Protection Officer -

"Peasant trickery" of the "Privacy Information Center"

My office has recently received an increasing number of inquiries and complaints from traders and companies about an allegedly in Oranienburg, Brandenburg, resident "Privacy Information Center".

This is not an authority, but a profit-making body that sends apparently unsolicited advertising by fax to Ge-advertisers sent.

Last but not least, the corresponding fax letter conveys the Profit-making intentions cannot be recognized immediately, an official impression and appearance that there is an obligation to comply with the "Privacy information center"/"DAZ" to report back or to register in order to to comply with the requirements of the General Data Protection Regulation. The Request with a short deadline, therefore a form in the appendix

fill in, on the other hand, aims at a thoughtless conclusion of a contract that

sent recipients for a subscription to a "Service Package Basic

data protection" for EUR 498 per year plus sales tax

unsolicited advertising or similar offers with signature

and enter into a contract is business and tradesman

not advisable.

Offered help, texts and forms for the implementation of data protection

Basic Ordinance can be found free of charge on the website of the

data protection supervisory authorities, including on the Saxon side

Data Protection Officer, <https://www.saechsdsb.de/anleitung>. This

official information as well as that of business and professional associations

and chambers should be sufficient to ensure compliance with the data protection

to be able to ensure regulation.
