Consent documents together with handout of the medical informatics

initiative

Notification of the voting result of the DSK

Dear Mr. Semler,

I am pleased to present you as Chairman of the Conference of Independent  
data protection supervisory authorities of the federal and state governments (DSK).

can that the DSK is of the opinion that against the nationwide  
set of consent documents of the medical informatics initiative no data  
protection concerns exist. There is a unanimously agreed

conclusion of the DSK of April 15, 2020. The after this decision

Changes to the documents that are still required have been made by you in the  
sion 1.6d of the consent documents, consisting of patient information  
tion and a declaration of consent, as well as the associated handout in

already fully incorporated in version 0.9d.

Several colleagues had in the voting discussion of the

DSK also indicated that the declaration that no

ken exist against the use of the consent documents

close, when using the "health insurance" module would be one of the

Appropriate data transmission on the part of the health insurance company and

subsequent further processing by the collecting institution

allowed. Rather, the health insurance companies in each individual case of a transfer

mediation request of the facility in whose favor the consent

was declared to have to check whether and to what extent the transmission by them

is permissible (cf. in particular § 75 SGB X). Likewise, the health insurance

facility collecting data, any existing restrictions on use

genes for this data have to be observed, even if they are not derived from the

wording of the consent.

You have told me that you share this view. Due to this  
is a publication and use of the documents in o. a. versions of  
nothing against us.

Thank you for the good cooperation and I am sure that we  
will continue to do so in a constructive and goal-oriented manner in the future.

Best regards
