Wednesday, February 2, 2 p.m.: "Surveillance or security?

Values in a digitized society" –

Workshop on data ethical perspectives in use

of digital technologies

Digitized technologies are an inseparable part of ours

Life. Through ever new possibilities of networking,

easy-to-use applications and unlimited com-

As a society, we gain more opportunities for communication

Comfort, safety and information. At the same time, digital

tal technologies are also used in many places to monitor

to manipulate and control.

On Wednesday, February 2nd, the LfDI officer for data

te ethics and digital competence Clarissa Henning in the work

shop "Surveillance or Security? values in a digital
ized society" on ethical aspects of human
Technology Interaction. The workshop
is special
for teaching
teachers and educators. Interested can
until Tuesday, February 1st, on the homepage of the
Register state representative.

- 2 -

Using the example of so-called robot companions (Companion
Bots), which are used in care, for example
could, the chances and the challenges of the
use of digital technologies for society and
individually discussed together. Elderly people could
make everyday life easier or supervise children.
Should they? How far can the monitoring by technology
(cameras, microphones, measuring instruments)? Create
Robots more security or they attack the informational
self-determination of a person? Finally to the dis-
After a kiss, the participants will receive information about materials
for teaching and learning.
