4 years from the application of the GDPR – May 25, 2022

On May 25, 2022, it will be four years since the direct application, in Romania and in the other states of the European Union, of the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council regarding the protection of natural persons in terms of data processing with personal nature and regarding the free circulation of these data and the repeal of Directive 95/46/CE (GDPR).

On the occasion of the celebration of the application of this European normative act, the National Supervisory Authority for the Processing of Personal Data organizes a series of actions aimed at increasing the awareness of the general public regarding the new rules for ensuring the protection of personal data and specific rights from which individuals benefit.

Thus, at the headquarters of our institution, on May 25, 2022, at 11:00 a.m., a Debate will take place in which representative professional associations and unions from specific fields of activity will participate. During this event, aspects related to the developments recorded regarding the effective applicability of the new personal data protection rules will be addressed in an interactive manner, mainly regarding the person in charge of personal data protection, impact assessment, respect for the rights of data subjects, ensuring data security and notifying security breaches.

Also, to mark this event, with the support of SocietăȚă de Transport București STB SA, during the months of May and June 2022, a message of public interest (promotional clip) relating to the main regulated aspects will be broadcast on public transport by Regulation (EU) 2016/679.
