At a minimum, the auditee had the obligation to respond to the complainant's request. At the same time, he testified with his statement that he knew what kind of request he had received. The inspection revealed a violation of Article 12, paragraphs 1, 2 and 3 of Regulation (EU) 2016/679. The auditee filed objections against the findings stated in the audit protocol, which the President of the Office rejected in her decision in full. Additional information: The controller must always respond to each request of the data subject, regarding the exercise of the right according to Regulation (EU) 2016/679.
