Statement of the LfDI on the "Luca App" online

The State Commissioner for Data Protection and Information

tion freedom Baden Württemberg Stefan Brink published,

after the operator of the Luca app and the state government

have been consulted on this, his recommendations in this regard

missing from 03/02/2021. In the meantime, the state government

their award decision based on the recommendation

made by the LfDI, so that these after the state

Freedom of Information Act Baden-Württemberg accessible

can be made. Find the statement of the LfDI

You here.

In the past month, the operator of the app added more

made data protection improvements

has meanwhile also the data protection conference

expressed (statement of the DSK on contact tracing apps). The data protection-compliant digital contact tracking is then a suitable means of effective pandemic control.
