PRESS RELEASE

Olympic exhibits and certificates, discussions

with former sports stars:

Exhibition "Sports heroes – remembered or forgotten?"

Dealing with the successes of former

GDR Olympic champion today"

from 26.11. until 10.12.2021

Competitive athletes want to pursue their passion

and have to reveal a lot about themselves for this, although it is for the

Sports heroes have shaped and continue to shape our time. They are

Role models. Inspire your stories of success. For the

Success they made many compromises and concessions

to have to do.

The State Representative

for data protection and

freedom of information dr Stefan Brink dedicates an exhibition

Sports heroes who achieved great victories then and now

fill history books.

The exhibition and the accompanying events

appreciate the achievements

Competitive athletes and current developments

in the

sports area apart. How much freedom does an athlete need

and reveal an athlete to the passion

follow? This is one of the key questions facing the

State representative follows.

With public tours through the exhibition and

unique roundtables with former sports stars who

partially withdrawn completely from the public

have and once again the stage for this exhibition

enter, the state commissioner is also a deep

Insight into the world of sports and the lives of athletes.

The exhibition is rounded off with guided tours

Freiburg conceptual artist Florian Mehnert through his

Light installation "Data to Light".

The exhibition shows Olympic champion certificates or certificates

by medal winners, including Marlies Göhr, the

fastest woman in the world, Udo Beyer

(shot put),

Wolfgang Schmidt (discus), Roland Matthes, Cornelia Ender

(swimming), Christian Schenk (decathlon), Anett Pöttsch

(figure skating), Erika Zuchold and Sven Tippelt (gymnastics).

On the occasion of evening events, the

Olympic medals presented by the guests - brought out

their private collections.

At the same time, the state representative directs his attention to the

liberties and civil rights. He also illuminates the

Areas of competitive sport in which athletes

be transparent in order to be successful.

The state representative Brink: "They fought and great

Victories won - many of us remember those

wonderful moments in which his favorite athlete and

his favorite athlete have celebrated great successes. we

admire them for their talent, will and achievement

wanting to belong to the best in their discipline. For these victories

the athletes put almost everything else on the back burner. we

show with this exhibition and the theme evenings how

very success and pressure are related."

In the fight with and against doping, for example, athletes have to

stay clean, so they have doping controls on them

fare. This also means

always and everywhere

for

controllers to be available. How do athletes hold

Far from doping and how do they succeed in the course of

permanent control to maintain a bit of privacy?

In order to be among the best in the meritocracy,
still become athletes today as children
massively drilled. how do they manage
her childhood to
preserve and at the same time in an adult environment
to protect?

Athletes are active in clubs, involved in associations –

how

How much had athletes in the GDR victories

for political reasons and at a high price

pay because they are under systematic pressure from the state

were set?
