dr Claudia Federrath, BlnBDI, Head of Department II (Legal)

In order to be able to sensitize children and young people,

Media educators first with the most important regulations themselves

be familiar with data protection. The input gives an overview of the

Basic concepts of data protection. It shows what is behind

the right to informational self-determination and which ones

legal regulations for handling personal data

must be observed by children and young people.

11:00 a.m. break

11:15 a.m. Risks in data processing – the data protection cube

Hinnerk van Bruinehsen, BlnBDI, Advisor Department IV (IT)

Christian Kühne, BlnBDI, Advisor Department IV (IT)

Communicating data protection requires various skills.

Among other things, this includes actors, stakeholder interests and deployed

To be able to recognize and classify technology in principle. Also heard

In addition, not only the merits of a technique, but also the risks of

to recognize the data processing behind it. have for the latter

Data protectionists use the data protection cube as a simple tool

developed. This is illustrated using examples from the field of

featured online social media. Individual risks are given as examples

associated with practical protective measures.

12:00 p.m. The media education work of the BlnBDI

Leonard Bergmann, media educator on the BlnBDI staff

Practical and methodical suggestions, experiences in the field

Data protection in the work with elementary school children, presentation of the

teaching material and the website data-kids.de

12:30 p.m. Lunch break including catering

1:15 pm Make data protection great again

Media Competence Center Marzahn-Hellersdorf

Even at a young age, digital media have an outstanding and

influential meaning. Responsibility and dealing with your own

Data, as well as that of others, is very demanding. We show in this

Workshop different methods how to work with children and young people

interactively and playfully the topics "data", "data protection", as well as

"strong passwords" can edit.

2:00 p.m. Your data? Safe!

Media Competence Center Steglitz-Zehlendorf

How can children and young people protect their own

Data are sensitized, although they are a lot on social networks

and messengers are on the go? With a kind of "accepting"

Media education assumes that children and

Young people use these data-legally unsafe media, but also

there have the opportunity to protect their personal data.

2:45 p.m. break

3:00 p.m. Crypto Kids

Media Competence Center Treptow-Köpenick

Presentation of the adventure game KryptoKids on the subject of data protection

for children from 8 to 12 years. With the help of interactive, digital

and analogue game elements, children become part of an exciting

detective story and solve playful, cooperative questions

Internet privacy and security.

3:30 p.m. Exchange and feedback in the plenum

Moderator: Leonard Bergmann (BlnBDI),

Bernd Gabler (jugendnetz.berlin)
